

# WOOD DIY

FAMILY TREE

vanDockum is the world leader in the development of acoustic solutions for walls and ceilings.

Inventions, innovation, material analysis, high technology, sustainability, durability, energy reduction, reusability, life time, buildability, and the discerning optical eye, have meant that vanDockum today holds various patents and design protections for ceilings and walls solution in Denmark and in the European market.

vanDockum products are made in Denmark.

Several of vanDockum's products are sold in more than 75 countries.
